About Redmine

This is an open source Ruby on Rails web application, which can be considered to be the de facto agship of project management solutions in the open source world. It supports all you need for effective project management: member roles, permissions management based on roles, Gantt charts, scheduling, calendar, roadmap, versions management, documents management, news delivery, fles directory, activity view, and more. With third-party extensions, you may also get invoice management, Scrum backlogs, Kanban board, burndown charts, and more. But it's not only a matter of project management.

Chapter #4

Update | Watch | Copy | Delete

Issue tracking

« Previous | 4 of 11 | Next »

Added by Andriy Lesyuk 2 days ago.

Status:	In Progress	**Start date:**	07/01/2012
Priority:	Normal	**Due date:**	07/18/2012
Assignee:	Andriy Lesyuk	**% Done:**	50%
Category:	-		
Target version:	Draft		

Description Quote

Issue tracking is actually the primary module of Redmine. This chapter will review all the details related to reporting, modifying and listing issues.

By the end of this chapter readers will know how to use Redmine as an issue tracker.

Repository integration

Defect #11085

Wiki start page can't be changed

Added by Stanislav German-Evtushenko about 1 month ago. Updated about 1 month ago.

Status:	Closed	**Start date:**	
Priority:	Normal	**Due date:**	
Assignee:	-	**% Done:**	0%
Category:	Project settings		
Target version:	2.0.2		
Affected version:	2.0.1	**Resolution:**	Fixed

Description

- Redmine version: 2.0.1 (stable)
- Project settings -> Wiki -> Start page
  - Default value is: Wiki - **can't be changed**

History

Updated by Jean-Philippe Lang about 1 month ago #1

- **Status** changed from *New* to *Confirmed*
- **Target version** set to *2.0.2*

Updated by Jean-Philippe Lang about 1 month ago #2

- **Status** changed from *Confirmed* to *Resolved*
- **Resolution** set to *Fixed*

Fixed in r9768.

Updated by Jean-Philippe Lang about 1 month ago #3

- **Status** changed from *Resolved* to *Closed*

Merged in 2.0-stable.

Associated revisions

Revision 9768
Added by Jean-Philippe Lang about 1 month ago

Fixed that wiki start page can't be changed (#11085).

Chapters
Chapter 1. Getting familiar with Redmine
12 Jun 2012 02:43 pm
This chapter answers basic questions about Redmine this way making a reader understand the application better. The chapter also adduces some components review and benchmarks.
Chapter 2. Installing Redmine
30 Jun 2012 05:00 pm
Chapter 3. Configuring Redmine
30 Jun 2012 05:00 pm
This chapter is aimed mostly for administrators as it describes configuration topics. But the chapter will be also interesting for project managers as by describing configuration it reveals many interesting features of Redmine.
Chapter 4. Issue tracking
18 Jul 2012 05:00 pm
Issue tracking is actually the primary module of Redmine. This chapter will review all the details related to reporting, modifying and listing issues.
